

Sachin Rao D

AWS | DevOps Engineer

Bengaluru, India | +91 63824 36949 | sachinace033@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

AWS Certified Cloud Practitioner and DevOps Engineer with 1+ year of hands-on experience in AWS cloud infrastructure, CI/CD pipeline automation, containerization, microservices deployment, and Linux administration. Skilled in deploying and managing scalable applications using AWS EC2, VPC, IAM, S3, RDS, Docker, Kubernetes, Jenkins, GitHub Actions, and Python. Experienced in infrastructure monitoring, cloud networking, deployment automation, and troubleshooting high-availability cloud environments.

TECHNICAL SKILLS

- **Cloud & Infrastructure:** AWS, EC2, VPC, IAM, S3, RDS, ALB, Auto Scaling, ECS, EKS, Lambda, Route 53, CloudFront, CloudFormation
- **Programming & Scripting:** Python, Bash/Shell, SQL, Linux
- **DevOps & CI/CD:** Docker & Docker Swarm, Kubernetes, Jenkins, GitHub Actions, Git, Microservices, CI/CD, Infrastructure as Code, Terraform, Ansible, Maven, SonarQube, Nexus
- **Monitoring & Observability:** Amazon CloudWatch, Prometheus, Grafana
- **Networking & Security:** TCP/IP, DNS, Subnets, Route Tables, NAT Gateway, Security Groups, VPC Networking
- **Web & Application Services:** Nginx, PM2, API Gateway, S3 Static Website Hosting
- **Tools & Collaboration:** Jira, GitHub, Documentation, Incident Troubleshooting, Cloud Migration

PROFESSIONAL EXPERIENCE

DevOps Engineer — STACKLY

Jan 2026 – Present

Bangalore, Karnataka, India

- Deployed and maintained the **Stackly AI SaaS Marketplace**, a multi-product platform with **10 AI-powered applications** for chatbot automation, document processing, resume screening, media generation, voice automation, analytics, and integrations.
- Managed **containerized microservices** using **Docker and Docker Compose** on AWS EC2, including service networking, environment variables, persistent volumes, logging, and automated restarts.
- Built and maintained **CI/CD pipelines** with **GitHub Actions** and **Jenkins** to automate application builds, testing, container workflows, and production deployments.
- Administered AWS infrastructure using **EC2, IAM, VPC, S3, and Application Load Balancer**, implementing secure access control and least-privilege IAM practices.
- Supported **branch-based testing** and **release workflows**, validating deployments and configuration changes before production releases.
- Integrated **SonarQube** for static code analysis and **Nexus Repository** for artifact and dependency management within delivery pipelines.
- Troubleshoot Docker, Linux, networking, database connectivity, configuration, and deployment issues using **CloudWatch**, health checks, endpoint validation, and application logs.

Junior DevOps Engineer Trainee — Blue Planet Infosolutions Pvt. Ltd.

Jan 2025 – Jun 2025

Internship | Remote (Pune), India

- Built and maintained **CI/CD pipelines** using **Jenkins** to automate application build, test, and deployment workflows.
- Managed **Jira Server** for sprint planning, bug tracking, and user story management, improving team workflow efficiency by **15%** and reducing project delays by **10%**.
- Configured infrastructure monitoring and supported proactive troubleshooting of application and system performance.
- Collaborated with development teams to implement **DevOps practices** across the Software Development Life Cycle (SDLC).
- Supported the migration of applications, databases, and infrastructure to **cloud-native AWS environments**, ensuring reliable deployment workflows.

PROJECTS

AWS Three-Tier Web Architecture

AWS | EC2 | VPC | ALB | Auto Scaling | RDS | Route 53 | IAM | CloudWatch

- Designed and deployed a scalable three-tier architecture on AWS with secure public and private subnets.
- Configured ALB, Auto Scaling, and Amazon RDS to improve availability and reliability.
- Implemented VPC networking, IAM access control, and CloudWatch monitoring.

Auto Insure

Python | JavaScript | Web Application

- Built a web application for vehicle damage image upload and automated insurance report generation.
- Streamlined the claim submission workflow through digital processing.

Intelligent Vehicle Breakdown Assistance

GPS | Cloud Backend | IEEE Publication

- Developed a cloud-based roadside assistance platform with GPS-based incident reporting.
- Published the project as an IEEE paper on intelligent vehicle breakdown management.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** — Amazon Web Services (Jul 2026 – Jul 2029)
- **Oracle Cloud Infrastructure 2025 Certified Foundations Associate** — Oracle (Feb 2026 – Feb 2028)
- **AWS Solutions Architecture Job Simulation** — Forage (Mar 2025)
- **DevOps Certification** — HCL GUVI (Oct 2023)

EDUCATION

- **Bachelor of Technology (B.Tech) — Information Technology**
Er. Perumal Manimekalai College of Engineering | Hosur, Tamil Nadu, India

Sep 2020 – Jun 2024

CGPA: 8.04 / 10
